Trace Elements

10th May – Lampeter

17th May – Near Pwllheli

Trace Elements - Wednesday 10th May Lampeter and Wednesday 17th May near Pwllheli. £300

This is an advanced sheep course, to improve veterinary knowledge in trace element and mineral nutrition for sheep & beef farms and the principles of undertaking whole farm mineral audits - Fiona Lovatt & Peter Bone

Subjects include:

- Why are trace elements & minerals important & in what context?
- Macro minerals (Ca, P, Mg, Na, S, K, Fe) & their relevance to forage-based beef and sheep systems
- Supply of minerals through the year & the different sources available to stock
- Trace Elements – cobalt, selenium, iodine, zinc, copper (including thiomolybdate issues and toxicity)
- Introduction to Mineral Auditing
- Farm visit
