Basic Sheep Modular Course

2024-2025

To be held at the WVSC and local farms. £300 per day. With Kate Hovers, Claire Jones and Jane Lindop

*Two modules remaining!
subjects include:*

- 3. **Lambing time 08/01/25**: late pregnancy and neonatal lamb health. Metabolic profiles, investigating abortion outbreaks and neonatal disease. Emphasis on colostrum. Practical to include body condition scoring and assessment of sheep shed in preparation for lambing. Discussion on antibiotic prescribing and rationale plus developing protocols will also be included.*
- 4. **Lamb rearing 30/04/25**: to include growing lamb health and parasite control. Practical on grass growth and lamb growth rates plus fat lamb assessment.*

All courses will include a hot buffet lunch.

For more information or to book your place please contact us at the details above.
